

Aero cleats

A range of 3 bases that allow more than 14 alloy cleats to be rigged on a rope.

- Easy to rig.
- The position of the cleat on the rope can be adjusted by hand. No tools required.
- Hold ropes from 2 - 6mm (1/16" - 1/4") diameter.
- Alloy cleats take higher loads and are suitable for harsh environments.
- Designed for outdoor and marine use.
- Uses include Kitesurfing, sports netting, canvas structures, radio masts.

CL826-11AN

CL826 base holds the Mk2 Junior cleats.

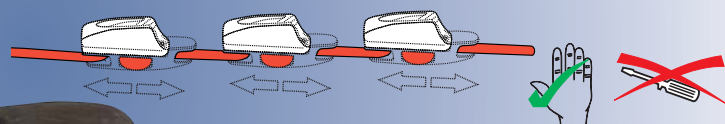

Easy to rig and adjust by hand.

CL827-11AN

CL827 base holds the Mk1 Junior cleats.

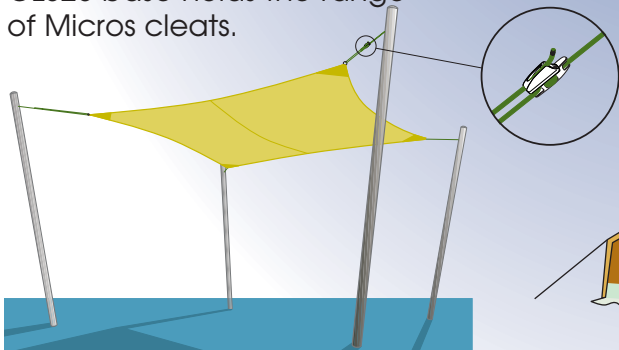

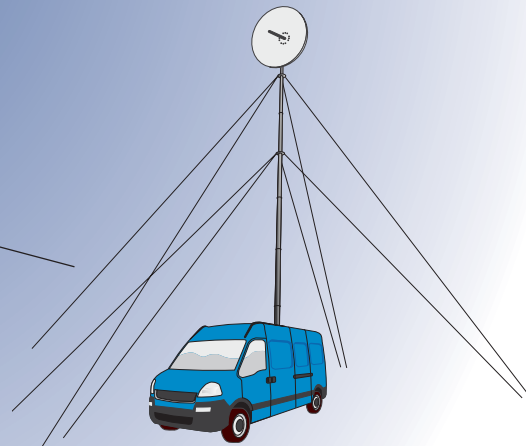

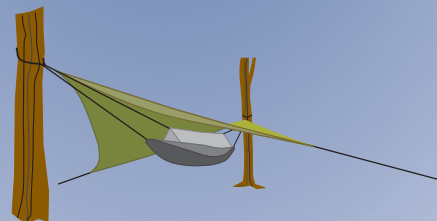

Move cleat along the rope by hand. No tools required.

CL828-68

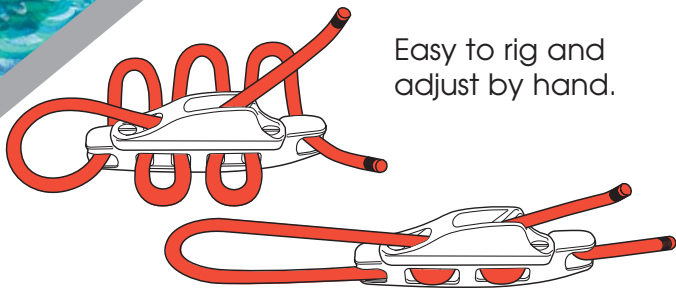

CL828 base holds the range of Micros cleats.

Aero cleat technical information

Easy to rig and adjust by hand.

CL827-11

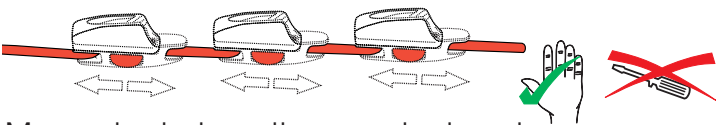

CL827-18AN

Side entry fairlead aids quick rigging and unrigging.

CL827-36

Use CL827-36, with roller fairlead, where rope forms a triangle.

Move cleat along the rope by hand. No tools required.

CL828-68AN

CL828-77AN

CL828-77 can be rigged 2:1 or 4:1.

CL828-77AN

Rig like this using a strap.
