

CL282 Micros Tie down cleat

for use on 1-3mm quality ropes, max holding power 50kgs

- Unique 4 tooth Clamcleat® design holds small ropes at high loads.
- One end is fixed. Cord is easily rigged and released. Unique design.
- CL282 Black & CL282W White, made from outdoor grade nylon for a long life.
- Developed after a request by a visitor to our stand at the METS trade show.
- Applications include tie-downs, dinghy & canoe control lines, sunshades & adjustable tensioners.

Attach CL282:-

A 4mm carabiner (snap-hook) attaches this CL282 to a control surface such as a kayak steering pedal
