

# INCREASE YOUR PULLING POWER

A close-up photograph of a hand holding a grey plastic Cleat 1 device. A red braided rope is threaded through the device. The hand is positioned to pull on the rope, demonstrating the device's use.

**CL261 Power Grip 1**  
for single handed use. Twice the load  
compared to using your bare hands.

**AND take the pain out of tensioning small ropes**

A close-up photograph of two hands holding a grey plastic Cleat 2 device. A red braided rope is threaded through the device. The hands are positioned to pull on the rope, demonstrating the device's use.

**CL262 Power Grip 2** for more pulling power  
and control. Both can be used  
to set up rigs and tension  
control lines from  
**3 - 6mm.**  
**1/8" - 1/4"**
